

A FRAGRANT WORLD!

About this book

An initiative to help our planet march towards a non-smoking reality.

A humble endeavor to spread the fragrance that we all will enjoy in a non-smoking world.

By: Kulbir Singh

This book is a collection of poems on non-smoking. Each poem strives to promote a message on the benefits that we all could reap individually and collectively if our world abandons smoking. With confirmed health hazards, tobacco and smoking have resulted in awful results. With smoking made history, the results will be awesome!

Introduction

This collection of poems in a small effort to contribute to the cause of making our planet free from smoking and tobacco. There are many organizations who are pursuing this noble cause of eliminating or atleast reducing smoking in our societies. We hope and trust that this booklet will serve as a resource towards that altruist cause!

About the Author

Kulbir Singh is a production engineer and a Masters in Personnel Management & Industrial Relations. He relates to his degrees combo pack in engineering and management as “Man Machine Synergies!”. Back in the 1990s, when seemingly, all roads led to I.T., Kulbir was no exception. Kulbir’s avid interests include travel, photography, cartooning, reading, writing and activism esp in vegetarianism. Kulbir loves to collaborate and believes in “It takes a whole village to raise a child”.

LEAVE SMOKING	15
A HAPPY SAIL	15

Cheerful, Happy days!

SMILEY DAY :)

*Since the time tobacco was
fumed,*

*Many many lives have been
consumed!*

*Let's adopt healthy ways,
To have cheerful, happy days!
From tobacco, if all stay away!
We evolve a healthy, happy way!
It's not just to say,
But for all to have a smiley day!*

WORLD'S WEALTH

*O friends! Smoking doesn't
spare anyone,
And this applies anywhere
under the sun!
Do follow the path for a pure
health,
Quit smoking and enjoy the
world's wealth!
The path to health is simple and
straight,
The hazards of tobacco are a
hindrance to a life, great!*

B L E S S E D D O L L A R S

*If Smoking is made history,
It won't reduce the industry!
Economy will auto re-arrange,
People, areas and all in the range!
Everyone will be happy and times great,
Health, wellness, systems and rate!
Give it a try,
No one will cry! No one!*

HEALTHY PATHWAYS IN THE SCIENCE KINGDOM

*THE ERA TODAY seems in defiance,
Of what was said by Science!
Research has given the answer,
That smoking leads to cancer!
Why then? Why then, do we ignore the fact
and continue this fuming act?
Happy times will always hide,
Until the rules of science we all abide!
Stopping the fuming fad,
Will make humanity glad!*

*UNLOCK EVERYONE'S
HAPPINESS*

Your Smoking gets me choking,

I'm not kidding nor joking!

Non-smokers have hardly a RIGHT!

They Breathe Unclean Air and

have a pathetic plight!

SMOKING has spread UNHAPPINESS &

FILTH,

In this world of HAPPINESS and HEALTH!

UNSTOPPABLE FUMES

Non-smokers have to put up a fight!

*Smokers have their smoking rights,
But non-smokers have to put up a fight!
Right to Smoking and Smoker's right,
Leaving non-smokers with a pathetic plight!
Fumes come travelling by air,
These don't need to pay a fare!
Like a liquid or a solid, these don't fall,
Dropping to the Earth like a ball!
The fumes head to everyone's nose,
Making your happiness to a close!
If scientists could turn these fumes to solid
things,
People wouldn't have to face the obnoxious
stings!*

NON SMOKING REVOLUTION

*Liquids and solids drop to the ground,
Tobacco fumes pollute up,
down and all around!
Smokers have a right to smoke
But others are made to choke!
Till smoking fumes do not gain
Gravity and head to a garbage can,
We all need to lobby for it's absolute ban!
Let's march toward a non- smoking revolution!
By our aims, goals, resolves and resolution!
It isn't much of a mystery,
Our initiatives can put smoking into history!*

IN DIRECTIONS FOUR

*Solids drop and the liquids pour,
Cigarette fumes fly and spread in directions four!
In all dimensions, cigarette fumes travel and head,
These don't drop or pour but spread!
These fumes don't fall to the ground,
Instead spread in the air and everyone, these surround!
Cigarettes don't emit a solid fume,
"These do not hurt me" – kindly do not assume!
Liquids aren't what cigarettes emit,
Obnoxious odours are what these submit!
Properties of solids and liquids, fumes don't comply,
Straight to everyone's faces, these fly!
Smokers have their smoking rights,
But non-smokers have to put up a fight!*

REQUESTING A CIGARETTE BUTT LITTERING BAN ACROSS OUR CITIES & TOWNS

To our Honourable Mayors and city councillors,

I wish to share with you and have your support on an initiative for making it unlawful to litter cigarette butts in public places. We believe that we live in times where cleanliness, beautification and awesomeness of cities and towns are our basic rights and are a needful part of our duties as well. That way we all are able to cherish urban grandeur, regardless of one's smoking inclinations.

In the absence of cigarette butt littering legislation or its implementation, we all continue to live in an unsightly ambience. As an example, downtowns of our cities are worst affected and present a highly unsightly look on the roads. We will all be able to live a truly modern lifestyle when we entitle ourselves to a litter free earth, a litter free environment for us, our families and our future generations!

To achieve this philanthropic end, we all need to come together and play our part in this unified and collective endeavour. While some of this issue may be addressed by education yet there is governance needed as well to solve this issue. To start with, we all need to question ourselves in very basic terms! Do we need a litter free and sparkling environment or are we satisfied with cigarette littered grounds and surroundings?

To understand and delve into this issue, we would encourage everyone to search for the key phrase “cigarette butt litter” and many educative resources will come up. While teachers, educators and parents can use these resources to educate students, these will hopefully be useful for policy making at the governance level.

Alternative means for disposal of cigarette remains need to come up, developed and be adopted. There are confirmed health hazards regarding cigarette butt/ waste spread on roads, pavements, streets, walkways and in all public places. We can live in a truly healthy ambience once we have laws enforcing citizens not to throw cigarette butts on the ground/ roads/ public places et al.

Having shared our thoughts, we request our city councils, provincial and federal government departments to look into this matter, provide alternative means for cigarette butts’ disposal and make cigarette butt disposal on the roads/ public places etc illegal.

We, look forward for everyone to be able to enjoy, cherish and see our environment and ambience in it’s clean and beautiful pristine outlook.
Thanks!

Kulbir Singh Chawla, Suite 889, Unit 234, 5149 Country Hills Blvd NW,

END Cigarette Litter

*Confirmed
health
hazards!*

There are confirmed health hazards regarding cigarette butt/ waste spread on roads, pavements, streets, walkways and in all public places.

We, look forward for everyone to be able to enjoy, cherish and see our environment and ambience in it's clean and beautiful pristine outlook.

In the absence of cigarette butt littering legislation or it's implementation, we all continue to live in an unsightly ambience.

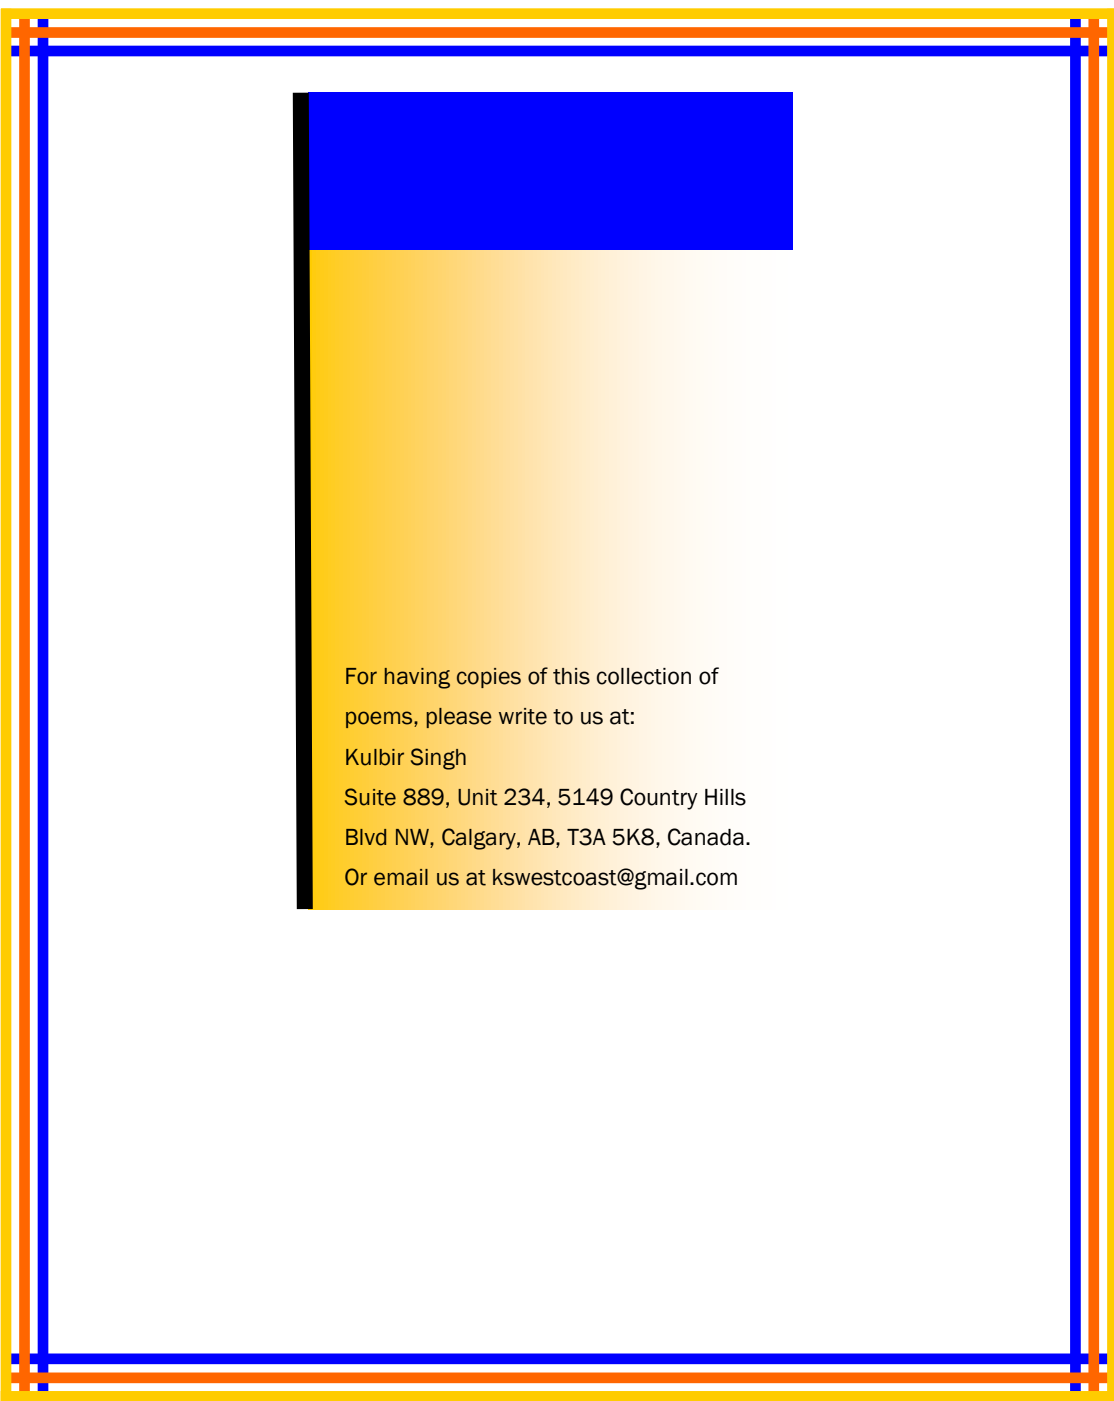

LEAVE SMOKING

*Smoking is bad
The results are sad
For everyone's good
Leave smoking, all should!*

A HAPPY SAIL

*If you Leave Smoking, No one will be
troubled by Choking!
The boat of your life will happily sail,
Believe, you wouldn't have to WAIL!*
